

Health Advocate makes healthcare easier for the whole family

The healthcare system is complex, and understanding and understanding your benefits can be challenging. Health Advocate is there to help at no cost to you.

Their experienced Personal Health Advocates can take on virtually any healthcare or insurance-related issues to save you time, money and worry. They can also explain medical conditions, find doctors, research treatments and much more.

Expert Help When You Need it Most

Here are just a few examples of the many ways Health Advocate can help:

You were just diagnosed with a medical condition. They can:

- Answer questions about your diagnosis and research treatment options
- Locate and make appointments with in-network doctors and specialists
- Arrange second opinions, including transferring medical records

“Health Advocate cut through the red tape to get my wife the right care at a difficult time.”

You’re overwhelmed with medical bills and don’t know where to start. They can:

- Review your bills for accuracy
- Contact providers and your insurance company on your behalf to resolve any issues or errors
- Keep you informed along the way

The Whole Family Can Use Health Advocate

Health Advocate’s confidential services are available to employees, spouses, dependents, parents and parents-in-law.
